A Message to Our Patrons

In checking over this catalog of 1945 you will find several of the old favorite varieties missing, especially among the standard fruit trees. This is due mainly to the fact that we have not been able to plant in the quantities of previous years on account of the shortage of labor and many varieties of fruit trees that have been sold since last spring and fall cannot be replaced.

Our brother nurserymen are much in the same position as ourselves and are unable to supply us with additional stock as in the past so if you fail to find all the varieties that you wish, please bear with us and if we can secure some of these wanted varieties later in the spring, we shall be most pleased to advise you accordingly. Prices are higher than in many years but the shortage of stock, the scarcity and high cost of labor, materials, etc., are directly responsible for these changes.

In spite of these handicaps, you may rest assured that we shall do everything in our power to give you the best that the market affords and to ship your orders as promptly as conditions permit. We shall look forward to receiving your orders and may we emphasize the fact that you send your orders just as soon as possible as our stock of all fruit trees, berry plants, etc., will be very limited and early orders will receive preference.

Most cordially yours,

E. H. BURSON NURSERY,

F. J. SICKLES, *President*

INFORMATION

To order from the catalog, simply make your selection, write it on the order blank enclosed, with the proper prices as listed in the catalog, and mail to us together with your check or money order in the self-addressed envelope attached hereto. A special "How to Plant" Booklet will be sent with your order.

SPECIAL NOTICE

Due to the extremely high cost and scarcity of materials such as burlap, twine, packing, etc., we are compelled to **make a charge of 40c for handling**, if your order amounts to less than \$5.00. It costs practically as much to pack a small order as it does a large one and under the circumstances, we know you will bear with us and your co-operation will be appreciated.

GUARANTEE

We guarantee stock to be first class in every respect and up to size and quality as advertised. If you are not pleased upon receipt of stock, please advise immediately and we will gladly replace the items.

If any trees should prove untrue to name, we will replace under proper proof or refund purchase price. We cannot assume greater responsibility.

TRANSPORTATION

All our stock is shipped F.O.B. our railroad station with the exception of such items as are marked postpaid.

Due to existing emergencies, we deem it advisable to ship regular orders express as freight deliveries are very uncertain.

TERMS

Payment should accompany order. This saves expense of bookkeeping records and enables us to sell high grade trees and plants at lower prices.

WHEN TO ORDER

Due to the extreme shortage of all kinds of fruit trees and small bush fruits, it is very necessary that you order early so that the stock may be reserved for you to avoid disappointment. Railroads are overtaxed with war work too, so please co-operate as much as possible.

Our Selection of the Choicest and Most Profitable Varieties of Apples

SUMMER VARIETIES

RED ASTRACHAN. Best of mid-summer cooking and eating apples. Yellow, splashed with crimson. Brisk sub-acid flavor and good quality. Very hardy. Ripens in July.

SWEET BOUGH. Large pale greenish-yellow sweet apple of excellent quality. One of the best early sweets. Ripens in August.

YELLOW TRANSPARENT. One of the best extra early yellow apples. Mild, acid, juicy, and tasty. Hardy and good filler between vigorous and stronger growing varieties. Ripens late July.

AUTUMN VARIETIES

GRAVENSTEIN. Orange-yellow color overlaid with stripes of light and dark red. Sprightly sub-acid in flavor. Quite hardy. Ripens in Mid-Summer. Excellent for pies and sauce.

WEALTHY. Extremely hardy. Red and yellow color. Good quality. Usually planted as a filler tree in commercial orchards, between rows of stronger growing varieties. Ripens about Sept. 15th.

WINTER VARIETIES

BALDWIN. One of the leading commercial varieties of New York and New England. Large bright red with crisp tender flesh. Good quality and **fine keeper**. Ripens in November.
